HIGHLIGHTERS :

BECCA - \$50 *Shimmering Skin Perfector in Opal*

This sheer cream liquid with light reflecting pearls gives skin a subtle luminosity that adjusts to any lighting. The Becca Shimmering Skin Perfector comes in a few different shades, but the most popular is Opal, a beautiful, glimmering golden champagne colour with a formula so lightweight it melts right into your skin. To achieve an easy dewy summer time look, apply this skin perfector alone to cancel out any imperfections, or blend it into your foundation for a luminous finish. You can also use this as a highlighter on specific areas, like your cheekbones, allowing the light-reflecting pearls to work their magic, leaving your skin with a soft, natural glow.

After giving it a firm shake, hold the bottle 10 - 12 inches from your face apply liberally all over, gently pressing it into the skin. This is the perfect pick me up for whenever your skin is feeling slightly parched. Just spritz some of this hydrating essence on your face and it will leave your skin glowing.
