This Fruity Beauty Tea is Caffeine-Free and Re-Hydrates Your Skin

Published: Jul 10, 2015 • References: [miyubeauty](#)

Perfect for people who have a hard time staying hydrated or drinking enough water, this beauty tea blend is designed to hydrate drinkers from the inside out. From MIYU Beauty, the Hydrate Mi Beauty Tea is a caffeine-free rooibos mix containing goji berries, rose petals and essence of snow pear.

If you find your skin is dehydrated, this tea is a tasty way to nourish your parched complexion. Light and fruity, the blend is designed for all skin types. Whether you are consuming too much caffeine, doing a lot of air travel, live in a dry climate or are experiencing particularly dry skin for another reason, these tea sachets could be your solution. Green rooibos is packed with antioxidants and electrolytes, plus fights aging free radicals. Goji berries provide collagen-boosting vitamin C too.
