LADYLIKE PINK

Hi everyone! I hope you are enjoying your summertime. I am now back from vacation and if you have been following my adventures on [instagram](#), you already know that my head is completely filled with memories of luscious palm trees and dreamy sunset on the beach. To get back into my blogging routine, I thought I'd share with you a few pink beauty bits that I have been playing with since the beginning of summer. First, we have the *Cute as a button* nail polish from Essie, a sassy coral shade that looks stunning paired with a subtle tan. In the warmer months, I never leave the house without a mini face mist in case I need to freshen up during the day. Lately, I have been using the *Miyu Beauty Hydrating mist* to add radiance to my complexion on the go. Another pink summer essential of mine is the *Instant Light Natural Lip Perfector* from Clarins in shade 05/Candy shimmer. It's the easiest way to achieve a polished pout while adding just the right amount of shine and moisture. That's why I always carry one of these in my handbag. The last item from this roundup is the Multi-task brush from Real Techniques. It only takes two seconds to apply blush with this ultra-plush makeup tool. I have had mine for over three years now and it's still in mint condition. I cannot rave enough about this brand.

Catherine

Ps. Oh yes, I forget to mention that the mini chocolate pigs are from [Chocolats Privilège](#) at Atwater Market.
