

# Nourish your Skin With Miyu Beauty

## The Collection

Suitable for all complexions, the debut collection consists of four products to care for the skin from the inside out. MIYU's beauty essences, when paired with MIYU's beauty teas, encourage happier, brighter and oh-so covetable complexions.

Loaded into every bottle of MIYU's beauty essences are powerful Asian botanicals that deliver an extraordinary fusion between the freshness of a facial mist and the nutrients of a serum.

## MIYU's Beauty Teas

MIYU's teas are premium, whole leaf blends, with each individual ingredient carefully selected for its known skin-enhancing benefits. The fragrant bouquet and sophisticated flavours coalesce to create an experience akin to a luxurious, blissful day at the spa. Each flavour pairing is designed to address specific lifestyle concerns and is meant to serve as a boost to your existing beauty

ritual routine. For example, MIYU's hydrate mi pairing works to rehydrate parched complexions, while MIYU's de-stress mi pairing calms skin aggravated by stress.

Every product is lovingly crafted with a simple mission in mind: to create a beauty arsenal to delight the senses, spread joy and encourage women to savor a little 'mi' time each and every day.

## MIYU's Signature Ingredients

All of MIYU's skincare products contain, at its core, three signature ingredients drawing upon ancient Chinese beauty wisdom that has been handed down for centuries:

- Green tea for skin protection
- White peony for radiance
- Mother of pearl for preservation of youth
