**1. SSHA RENU
EXFOLIATING GEL**

Papaya enzyme is one of the most effective ingredients in exfoliating removing dead skin cells, and this product is chock full of it! Use 1-2 times per week for a smooth, polished skin surface.

**2. BVLGARI POUR HOMME EAU
DE TOILETTE**

The beginning of fall marks the transition to an entirely different olfactory mood—spicy and woody, with dominating notes of musk and amber. The men in the office have been particularly favoring this Bulgari scent, which we have to admit to stealing a few spritzes ourselves.

**3. STILA MAGNIFICENT
METALS FOIL FINISH EYE
SHADOW**

We were enamored by the gilded lids of the models at the Betsey Johnson show this New York Fashion Week. The secret to the foil-like appearance, according to makeup artist Sarah Lucero, was this magnificent formula.

4. KIEHL'S CREME DE CORPS

It's imperative to start early on the moisturizing regime to ensure your skin stays in great shape throughout the colder months. Grab a large bottle of Kiehl's iconic moisturizer and apply liberally all over as soon as you get out of the shower. Your skin will thank you in a few months!

**5. MIYU BEAUTY HYRDATE MI
BEAUTY ESSENCE**

We love sleeping in, so any time-saving product would get a thumbs up in our book. The Miyu Beauty Essence is both a mist and hydrating serum housed in a handy spray bottle. One quick spritz and you're out of the door!
