Mingling Mondays ~ Coral & Tea is A Lounge Combination

I start every morning brewing teas with my [Breville Tea Maker](#) as it's a great way to wake up, bring nutrients to my body and I love having this aromatic! If tea is good for you, then having it within your beauty routine is also an essential. Slated to launch this month, [MIYU Beauty](#) has taken not only tea within its product offerings BUT they have included it within their cosmetics as well from cleansers to moisturizers! MIYU Beauty is not only a great beauty line but is founded by Connie Tai, (she developed [Bliss Spa's](#) popular products Blood Orange + White Pepper bodycare line, FatGirlSleep, FatGirlScrub and Tan For All Seasons). **Roll over the above image** to connect to the line and of course starting the day off right is also about being in a great state of mind. Make sure to check out how you can stay well accessorized when you wake up or if you decide to stay within this outfit for the day wether you have a day off, are on vacation or work from home!
